

BIBB COUNTY, GEORGIA

*Community Data
Health Packet*

TABLE OF CONTENTS

Health is shaped by where people live, learn, work, and age. This packet provides a quick orientation to the demographic, social, and health profile of Bibb County- the community context you are entering as future physicians.

Note: Bibb County contains neighborhoods designated “declining” or “hazardous” under federal Homeowners’ Loan Corporation (HOLC) redlining maps (1935-1940); that history of disinvestment continues to shape current community conditions and health outcomes.

COUNTY DEMOGRAPHICS

Bibb County is a metropolitan county anchored by Macon. The patient population you will see is majority Non-Hispanic Black, with a higher share of children, older adults, and people with functional limitations than the state as a whole. Median household income is roughly two-thirds of the state median, and poverty is nearly double.

Indicator	Bibb County	Georgia
Total Population	156,512	11,029,227
Under 18	24.4%	23.0%
65 and Older	16.9%	15.4%
Female	53.0%	51.3%
Non-Hispanic Black	56.6%	32.1%
Non-Hispanic White	34.6%	49.6%
Hispanic	4.8%	11.1%
Asian	2.2%	4.9%
American Indian / Alaska Native	0.4%	0.6%
Disability: Functional Limitations	35%	29%
Not Proficient in English	1%	3%
Children in Single-Parent Households	45%	30%
Rural Population	14.1%	25.9%
Median Household Income	\$48,539	\$72,742
Individuals in Poverty	22.5%	12.9%

Clinical Relevance: A patient panel that skews older and lower-income with high disability prevalence means more multimorbidity, transportation barriers, and dependence on Medicaid, Medicare, and safety-net services.

Sources: County Health Rankings & Roadmaps (2025); U.S. Census ACS 2019-2023

POPULATION HEALTH & MORALITY

Bibb County is faring worse than the average Georgia county and the average U.S. county on overall population health. Premature death is the headline number: residents lose roughly 60% more years of potential life than the average American.

Quality of Life Indicators

Indicator	Bibb County	Georgia	U.S.
Premature Death (years of potential life lost per 100,000)	14,800	9,200	8,100
Poor or Fair Health	25%	24%	20%
Poor Physical Health Days (per month)	4.9	4.9	4.5
Poor Mental Health Days (per month)	6.1	5.9	5.7
Low Birth Weight	14%	10%	8%

POPULATION HEALTH & MORALITY

Clinical Relevance: Mortality in working-age adults is driven heavily by injury, violence, and overdose- not chronic disease. Screening for safety, substance use, and mental health is as important as cardiovascular risk in this population.

Source: Georgia DPH OASIS CHNA Dashboard, 2020-2024

Top 10 Leading Causes of Death (Age-Adjusted, 2020-2024)

Cause of Death	Deaths
1. COVID-19	602
2. Ischemic Heart and Vascular Disease	560
3. Cerebrovascular Disease	425
4. Other Mental and Behavioral Disorders	372
5. Other Diseases of the Nervous System	348
6. COPD (except asthma)	332
7. Trachea, Bronchus and Lung Cancers	325
8. Alzheimer's Disease	277
9. Nephritis/ Nephrotic Syndrome/ Nephrosis	274
10. Hypertension and Hypertensive Heart Disease	227

Leading Causes by Age Group (2020-2024)

Infants (<1yr): Perinatal conditions, SIDS, congenial malformations

Ages 15-24: Homicide, motor vehicle crashes, suicide, overdose

Ages 25-54: Accidental poisoning (overdose), homicide, MVCs, ischemic heart disease, COVID-19

Ages 55+: Ischemic heart disease, COVID-19, cerebrovascular disease, cancers, Alzheimers

COMMUNITY CONDITIONS & SOCIAL DETERMINANTS

Community conditions- the social, economic, and physical environment in which people live- are the upstream drivers of the clinical picture you will see in Bibb. The county fares about the same as the Georgia average on community conditions overall, but worse than the U.S. average.

Health Infrastructure

Indicator	Bibb County	Georgia	U.S.
Primary Care Physicians (pop: provider)	680:1	1,490:1	1,310:1
Mental Health Providers (pop: provider)	420:1	500:1	290:1
Dentists (pop: provider)	1,530:1	1,840:1	1,340:1
Uninsured	13%	13%	9%
Preventable Hospital Stays (per 100,000 Medicare)	3,587	3,147	2,769
Flu Vaccinations	39%	41%	44%
Mammography Screening	50%	44%	46%
Food Environment Index (0=worst, 10=best)	6.2	6.2	7.6

Physical Environment

Indicator	Bibb County	Georgia	U.S.
Severe Housing Problems	20%	15%	17%
Broadband Access	86%	91%	91%
Air Pollution: Particulate Matter (PM2.5)	8.2	8.8	7.3
Driving Alone to Work	78%	72%	70%

COMMUNITY CONDITIONS & SOCIAL DETERMINANTS

Social and Economic Factors

Indicator	Bibb County	Georgia	U.S.
Children in Poverty	32%	19%	16%
Income Inequality (ratio, 80th:20th percentile)	6.5	4.8	4.9
Unemployment	4.6%	3.5%	4.0%
High School Completion	87%	89%	89%
Some College	59%	66%	68%
Injury Deaths (per 100,000)	112	80	87
Child Care Cost Burden (% of income)	29%	23%	28%

Clinical Relevance: Bibb has better primary care and mental health provider ratios than the state average- but worse uninsured rates, higher preventable hospitalizations, and far higher child poverty and income inequality. Access on paper does not equal access in practice.

CHILDREN, YOUTH, & FAMILY HEALTH

Bibb County's child health profile sits well below state averages on most indicators. Roughly 1 in 3 children live in poverty, half live in single-parent households, and teen mortality is nearly double the Georgia rate - driven primarily by homicide, motor vehicle crashes, and suicide.

Maternal, Infant & Youth Health

Indicator	Bibb County	Georgia
Low-Birthweight Babies	14.9%	10.2%
Infant Mortality (per 1,000)	7.1	7.1
Children Without Health Insurance	5.6%	6.9%
Child Deaths, Ages 1-14 (per 100,000)	37.2	21.3
Teen Births, Ages 15-19 (per 1,000)	28.1	16.5
Teen Pregnancies, Ages 15-17 (per 1,000)	21.9	9.7
STD Incidence, Ages 15-19 (per 1,000)	66.5	33.7
Teen Deaths, Ages 15-19 (per 100,000)	122.1	68.6
Teen Deaths by Homicide, Suicide, Accident (Per 100,000)	112.8	49.8
9th Graders Reporting Past 30-Day Alcohol Use	9.2%	5.5%

Family Stability & Economic Security

Indicator	Bibb County	Georgia
Children Living in Single-Parent Families	50.9%	33.7%
Families <150% Federal Poverty Threshold	21.3%	25.1%
Children Whose Parents Lack Secure Employment	13.4%	8.0%
Substantiated Child Abuse/ Neglect (per 1,000)	5.2%	4.5
Children Enrolled in Medicaid or PeachCare (count)	29,775	--
Households w/ Children Receiving SNAP (count)	9,667	--

CHILDREN, YOUTH, & FAMILY HEALTH

Education and School Readiness

Indicator	Bibb County	Georgia
Children Absent >15 Days From School	29.8%	23.2%
3rd Graders Proficient or Above (ELA)	22.8%	38.7%
8th Graders Proficient or Above (Math)	13.9%	36.3%
On-Time High School Graduation	87.1%	84.4%
Teens Ages 16-19 Not in School and Not Working	8.7%	7.5%
Adults with Bachelor's Degree or Higher	26%	34.2%

Clinical Relevance: Low birth weight is 49% above the state rate. Teen STI incidence is nearly double. Adolescent mortality is dominated by injury and violence. Pediatric and family medicine encounters here often surface upstream needs around housing, food, and safety.
